7 Help

1. Backup the EntraPass Special Edition Database

- 1. Logon to EntraPass Special Edition software.
- 2. Go to the **Options** tab.
- 3. Click the **Backup Data** icon to open the Backup window.
- 4. Check the Automatic Backup checkbox.
- By default, the backup will be stored in c:\Program
 Files\Kantech\Server_SE\Data. If you want to change the directory where to store the backup, check the Specific folder box and click is to locate the directory.
- 6. At the bottom of the window, check the **Now** checkbox.
- 7. Click **OK** to initiate the backup immediately.
- 8. Once the backup is completed, close the EntraPass Special Edition application.

2. Install the EntraPass Corporate Edition

- Make sure that no EntraPass applications are running on the machine.
- 2. Using a full version of the EntraPass Corporate Edition software, install the server, database and first workstation. (Do not install services, gateway or SmartLink). The application serial number is located on the cd.
- 3. Restart the computer at the end of the installation.
